EDUCATION

Jaypee University of Information Technology (JUIT) Bachelor of Technology in Computer Science Engineering	Solan, India 2029
Kendriya Vidyalaya No.2 Airforce Station Higher Secondary Education (73.8%) Secondary Education (91%)	Kanpur, India 2025 2023

TECHNICAL SKILLS

- **Programming Languages:** C++, Python
- **Libraries & Frameworks:** Numpy, Pandas, Matplotlib, Scikit-learn, OpenCV, Streamlit
- **Databases:** MySQL
- **Operating Systems:** Windows
- **Software & IDEs:** MS Word, PowerPoint, VS Code, VS, Code Blocks, Jupyter Notebook

PROJECTS

- **AI - Based Private Security Camera System**
Developed a private security camera system using Python and OpenCV for live video capture and frame processing.
Applied an Artificial Intelligence based YOLO model for real-time object detection from the camera feed.

EXPERIENCE & ACTIVITIES

- **Member of Technical Science, Movies & Photography Club, JUIT**
Contributed to the official website for MURIOUS 20.0, assisting in basic design and feature implementation.
Resolved technical issues and supported smooth website functionality during the event.
- **Smart India Hackathon (Participant)**
Collaborated with a team at the national level to contribute to development and problem-solving.
- **Web Development Session - IEEE Student Branch, JUIT**
Attended a 3-day hands-on workshop covering HTML structure, CSS styling, and basic JavaScript.

SOFT SKILLS

- **Leadership:** Lead team in Project Presentation; Organized MURIOUS 20.0.
- **Networking:** Contacted companies for collaboration and industry outreach.
- **Personal:** Pressure Handling, Teamwork, and Communication Skills.
